This manual is for UTC-318.

# Declaration of Conformity

## FCC Class A

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on again, the user is encouraged to attempt to correct the interference by implementing one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your dealer or an experienced radio/TV technician for assistance.

**Warning!** *Any changes or modifications made to the equipment that are not expressly approved by the relevant standards authority may void your authority to operate the equipment.*

## Packing List

Before installing UTC-318, please ensure that the following materials have been shipped:

- 1 x UTC-318
- Accessories for UTC-318
  - 1 x Warranty card
  - 1 x Adapter
  - 1 x SATA cable
  - 1 x Packet of screws

If any of these items are missing or damaged, contact your distributor or sales representative immediately.

## Technical Support and Assistance

1. Visit the Advantech website at <http://support.advantech.com> to obtain the latest product information.
2. Contact your distributor, sales representative, or Advantech's customer service center for technical support if you require additional assistance. Please have the following information ready before calling:
  - Product name and serial number
  - Description of your peripheral attachments
  - Description of your software (operating system, version, application software, etc.)
  - A comprehensive description of the problem
  - The exact wording of any error messages

---

## Safety Instructions

1. Read these safety instructions carefully.
2. Retain this user manual for future reference.
3. Disconnect this equipment from all AC outlets before cleaning. Use only a damp cloth for cleaning. Do not use liquid or spray detergents.
4. For pluggable equipment, the power outlet socket should be located near the equipment and easily accessible.
5. Protect this equipment from humidity.
6. Place this equipment on a reliable surface during installation. Dropping or letting the device fall may cause damage.
7. The openings on the enclosure are for air convection. Protect the equipment from overheating. Do not cover the openings.
8. Ensure the power source voltage is correct before connecting the equipment to a power outlet.
9. Position the power cord away from high-traffic areas. Do not place anything over the power cord.
10. All cautions and warnings on the equipment should be noted.
11. If unused for a long time, disconnect the equipment from the power source to avoid damage from transient overvoltage.
12. Never pour liquids into the openings of the device. This may cause fire or electrical shock.
13. Never open the equipment. For safety reasons, the equipment should be opened only by qualified service personnel.
14. If one of the following occurs, have the equipment checked by qualified service personnel:
  - The power cord or plug is damaged.
  - Liquid has penetrated the equipment.
  - The equipment has been exposed to moisture.
  - The equipment is malfunctioning, or does not operate according to the user manual.
  - The equipment has been dropped and damaged.
  - The equipment shows obvious signs of breakage.
15. Do not keep the equipment in an environment with a storage temperature of below  $-20\text{ }^{\circ}\text{C}$  ( $-4\text{ }^{\circ}\text{F}$ ) or above  $60\text{ }^{\circ}\text{C}$  ( $140\text{ }^{\circ}\text{F}$ ) as this may damage the components. The equipment should be stored in a controlled environment.
16. Batteries that are incorrectly replaced are at risk of exploding. Replace only with the same or equivalent type recommended by the manufacturer. Discard used batteries according to the manufacturer's instructions.
17. In accordance with IEC 704-1:1982 specifications, the sound pressure level at the operator's position does not exceed 70 dB (A).

**DISCLAIMER:** These instructions are provided in accordance with IEC 704-1. Avantech disclaims all responsibility for the accuracy of any statements contained herein.

# Chapter 1

## General Information

This chapter gives background information regarding UTC-318.

- Introduction
- System Specifications
- LCD Specifications
- Optional Modules
- Dimensions

# 1.1 Introduction

UTC-318 is a multi-purpose all-in-one computer equipped with a wide format, touch-based LCD panel. The system can be easily integrated with additional peripherals and display systems to support diverse self-service operations and interactive signage applications at various locations. Additionally, with the removable frame design, the system can be panel mounted for control operations.

## 1.2 System Specifications

### 1.2.1 General

- **Dimensions (L x H x D):** 475 x 295 x 43.5 mm (18.7 x 11.61 x 1.71 in)
- **Weight:** 5 kg (11 lb)
- **Power adaptor:** AC/DC (standard) 12 V, 84 W  
Input voltage: 100 ~ 240 V<sub>AC</sub>  
Output voltage: 12 V @ 7 A
- **Disk drive housing:** Supports one 2.5" SATA HDD
- **Front panel:** IP65 rating for protection from water and dust

### 1.2.2 Standard PC Functions

- **CPU:**
  - Intel® Core™ i5-4300U (UTC-318E)/Core™ i5-6300U (UTC-318F) with 3 MB L3 cache
  - Intel® Celeron® J1900 (UTC-318D)/Pentium® N4200 (UTC-318G) with 2 MB L2 cache
- **BIOS:** AMI 16 MB Flash BIOS via SPI
- **System chipset:** Intel® Core™ i5-6300U/i5-4300U/Pentium® N4200/Celeron® J1900
- **System memory:**
  - 1 x 204-pin SODIMM DDR3L 1333 MHz up to 8 GB (UTC-318D/E)
  - 1 x 260-pin SODIMM DDR4 2133 MHz up to 16 GB (UTC-318F)
  - 1 x 204-pin SODIMM DDR3L 1866 MHz up to 8GB (UTC-318G)
- **Serial ports:** 1 x RS-232 COM, 1 x RS-232/422/485
- **USB ports:**
  - Supports up to 5 x USB 2.0/1 x USB 3.0 (UTC-318D)
  - Supports up to 2 x USB 2.0/4 x USB 3.0 (UTC-318E/F/G)
- **Mini PCI-E bus expansion slot:**
  - Accepts 1 x mini PCIE device (wireless LAN card)
  - Accepts 1 x M.2 2230/mSATA (UTC-318G)
- **Watchdog timer:** Single-chip watchdog timer with 255 interval levels, setup using software
- **Power management:** Full ACPI (Advanced Configuration and Power Interface) 2.0 supports S0, S1, S3, S4, S5

### 1.2.3 Audio Function

- **Audio:** High-definition (HD) audio, 2 x 1 W speakers
- Optional audio output function

## 1.2.4 LAN Function

- **Chipset:**
  - LAN1 Intel® I218LM, LAN2 Intel® WGI211AT (UTC-318E)
  - LAN1 Intel® I219LM, LAN2 Intel® WGI211AT (UTC-318F)
  - LAN1 Intel® WGI211AT, LAN2 Intel® WGI211AT (UTC-318D/G)
- **Speed:** 1000 Mbps
- **Interface:** 2 x RJ45
- **Wake-on-LAN:** Supports wake-on-LAN with ATX power control and LAN teaming (in fault tolerance)

## 1.2.5 Touchscreen (Optional)

Type	5-wire analog resistive (resistive flat glass)/projected capacitive touch panel (PCAP flat glass)
Light Transmission	80%
Controller	USB interface
Durability (touches in a lifetime)	36 million

## 1.2.6 Environment

- **Operating temperature:** 0 ~ 40 °C (32 ~ 104 °F)
- **Storage temperature:** -20 ~ 60 °C (-4 ~ 140 °F)
- **Relative humidity:** 10 ~ 95% @ 40 °C (non-condensing)
- **Shock:** 10 G peak acceleration (11 ms duration)
- **Certification:**  
EMC: CE, FCC, BSMI, VCCI  
Safety: UL 60950, CB, CCC, BSMI
- **Vibration:** 5 ~ 500 Hz 0.5 Grms random vibration
- **VESA support:** 100 x 100 mm (3.93 x 3.93 in) with 8 x M4 screws; supports landscape and portrait modes

**Caution!** Use suitable mounting apparatus to avoid personal injury.

**Note!** Please follow the recommendations provided in the user manual when installing UTC-318.

### 1.3 LCD Specifications

- **Display type:** 18.5" TFT LCD
- **Max. resolution:** 1366 x 768
- **Colors:** 16.7M
- **Pixel pitch (H x V):** 300 x 300 um
- **Viewing angle:** 170°/160°
- **Luminance:** 250 cd/m<sup>2</sup>

**Note!** *The color LCD panel integrated with UTC-318 is of high quality and reliable. However, the display may contain a few defective pixels that do not always illuminate. Even with the most up-to-date technology, it is impossible to completely eliminate defective pixels. Advantech is actively working to improve this technology.*

## 1.4 Optional Modules

- **Memory:**
  - 1 x 204-pin SODIMM DDR3L 1333 MHz up to 8 GB (UTC-318D/E)
  - 1 x 260-pin SODIMM DDR4 2133 MHz up to 16 GB (UTC-318F)
  - 1 x 204-pin SODIMM DDR3L 1866 MHz up to 8 GB (UTC-318G)
- **HDD: 2.5" SATA HDD**
- **Operating system:**
  - WES 7P (32 bit)
  - WES 7E (32 bit)
  - Windows Pro Embedded 7 SP1 (64 bit)
  - WE8S (64 bit)
  - Windows Embedded 8.1 Industry Pro (64 bit)
  - Windows 10 IoT Enterprise (64 bit)
  - Linux Ubuntu 16.04 (except UTC-318G)
  - Android 4.4 (only UTC-318D)
  - Android 6.0 (only UTC-318G)
  - Linux Ubuntu 18.04(only UTC-318G)
- **Touchscreen:** 5-wire analog resistive (resistive flat glass)/projected capacitive touch panel (PCAP flat glass)/glass panel
- **Power cord:** 1702002600 (US) 1702002605 (Europe)
- **Wireless LAN module:**

Part Number	Description
1750008953-01 (UTC-318D/E/F)	Metal antenna D.B 2.4+5G WLAN MHF1/113 BLK L350
968EMW0071 (UTC-318D/E/F)	Wireless 802.11abgn AR9382 2T2R full-size DNXA-1
EWM-W163M201E (UTC-318G)	802.11 a/b/g/n/ac,QCA6174A,2T2R,w/BT4.1,M.2
1750008954-01 (UTC-318G)	Metal antenna D.B 2.4+5G WLAN MHF4/113 BLK L350

## 1.5 Dimensions

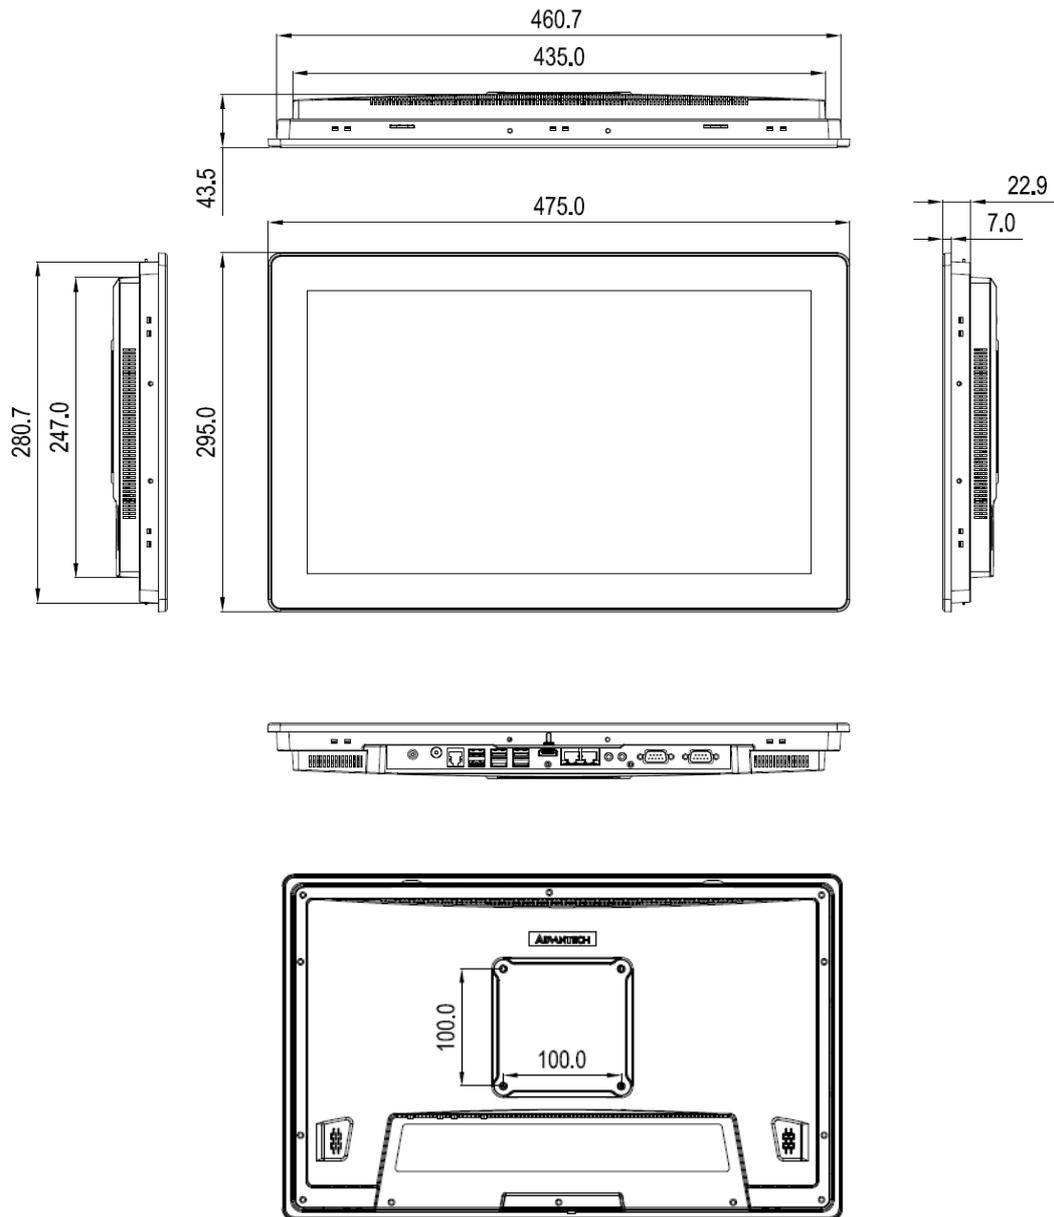

Figure 1.1 UTC-318 Dimensions

# Chapter 2

## System Setup

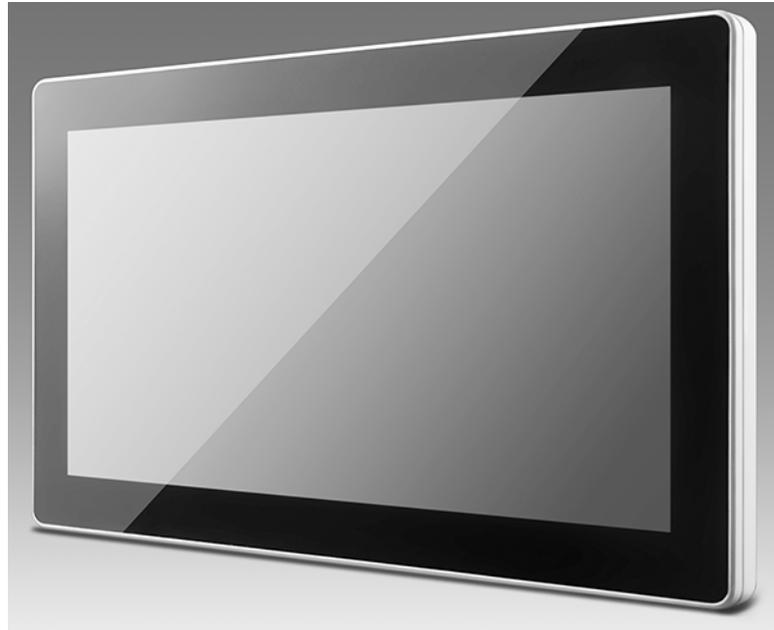

This chapter details the processes for setting up UTC-318.

- Quick Tour
- Installation Procedures
- BIOS Setup Utility
- System Software Installation
- Driver Installation

## 2.1 Quick Tour

Before setting up UTC-318, take a moment to familiarize yourself with the location and functions of the controls, drives, connectors, and ports.

When the UTC-318 is upright, the front panel should appear as shown in Figure 2.1.

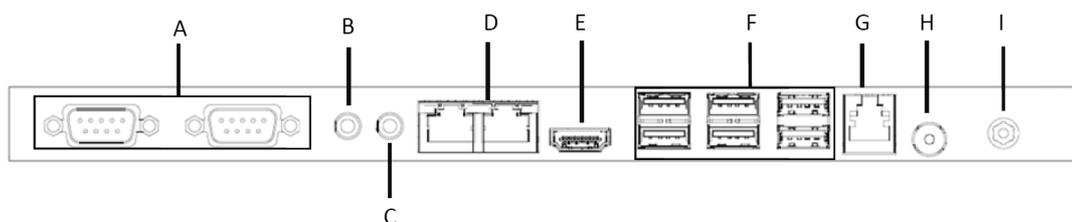

**Figure 2.1 UTC-318 Front View**

Located at the rear of UTC-318 is the I/O section, as shown in Figure 2.2.

(The I/O section comprises serial, Ethernet, USB, HDMI, Line-Out/Mic-In, RJ11, and DC-In ports, as well as a power button.)

**Figure 2.2 UTC-318 Rear View**

- |             |  |
|-------------|--|
| A. COM port | B. Line-Out                                |
| C. Mic-In   | D. Gigabit LAN x 2                         |
| E. HDMI     | F. 4 x USB 3.0, 2 x USB 2.0 (UTC-318E/F/G) |
| G. RJ11     | 1 x USB 3.0, 5 x USB 2.0 (UTC-318D)        |
| I. DC-In    | H. Power button                            |

## 2.2 Installation Procedures

### 2.2.1 Connecting the Power Cord

UTC-318 can be powered by a DC electrical outlet. When handling power cords, ensure to only hold the plug ends. Please refer to Figure 2.3 when connecting the male plug of the power cord to the UTC-318 DC inlet.

### 2.2.2 Connecting a Keyboard or Mouse

Before powering on the device, connect a keyboard or mouse to the relevant port in the I/O section.

### 2.2.3 Switching On the Power

The power button is located at the rear of the UTC-318, as shown in Figure 2.3.

Figure 2.3 Connecting the Power Cord to the DC Inlet

## 2.3 BIOS Setup Utility

This equipment is likely to have been set up and configured by the dealer prior to delivery. Nonetheless, users may still need to use the UTC-318's BIOS setup utility to adjust the system configuration data, such as the current date and time or hard drive type. The setup program is stored in read-only memory (ROM) and can be accessed by pressing "Del" immediately after powering on or resetting the computer.

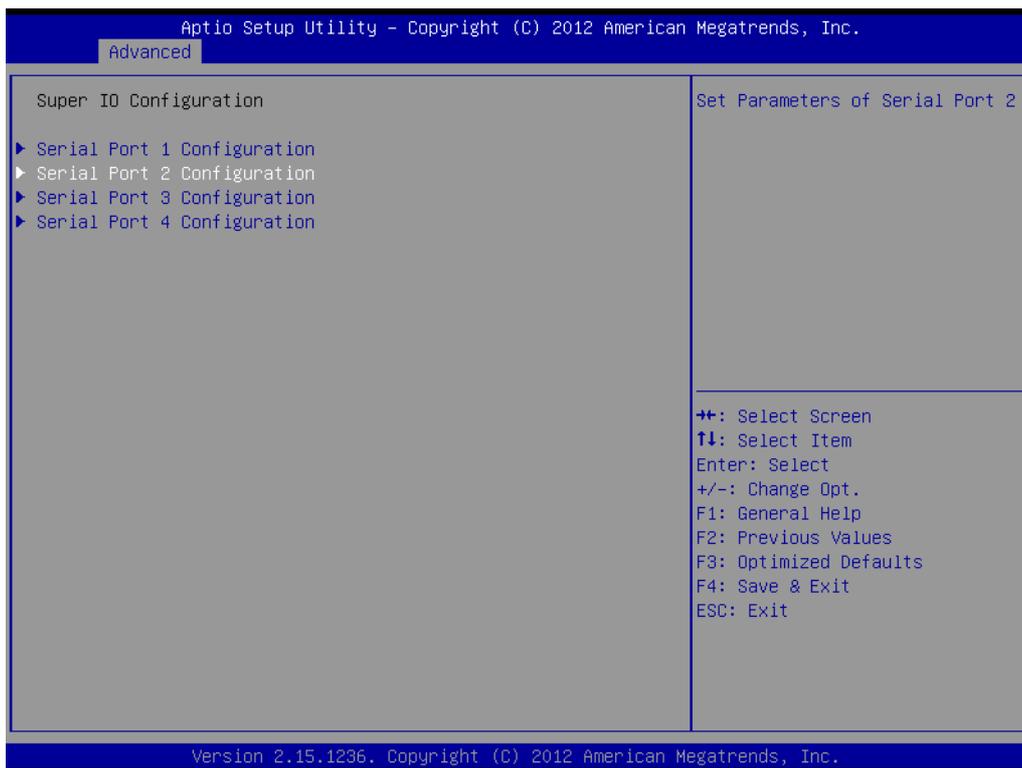

The settings specified in the setup program are recorded in a special area of memory called CMOS RAM. This memory is backed up by a battery to ensure the settings are retained when the system is powered off or reset. When the power is turned on, the system reads the settings stored in CMOS RAM and compares them to the results of the equipment check conducted during the power on self-test (POST). If an error is detected, an onscreen error message will be displayed, and users will be prompted to run the setup program.

### COM2 RS232/RS422/RS485 Selection

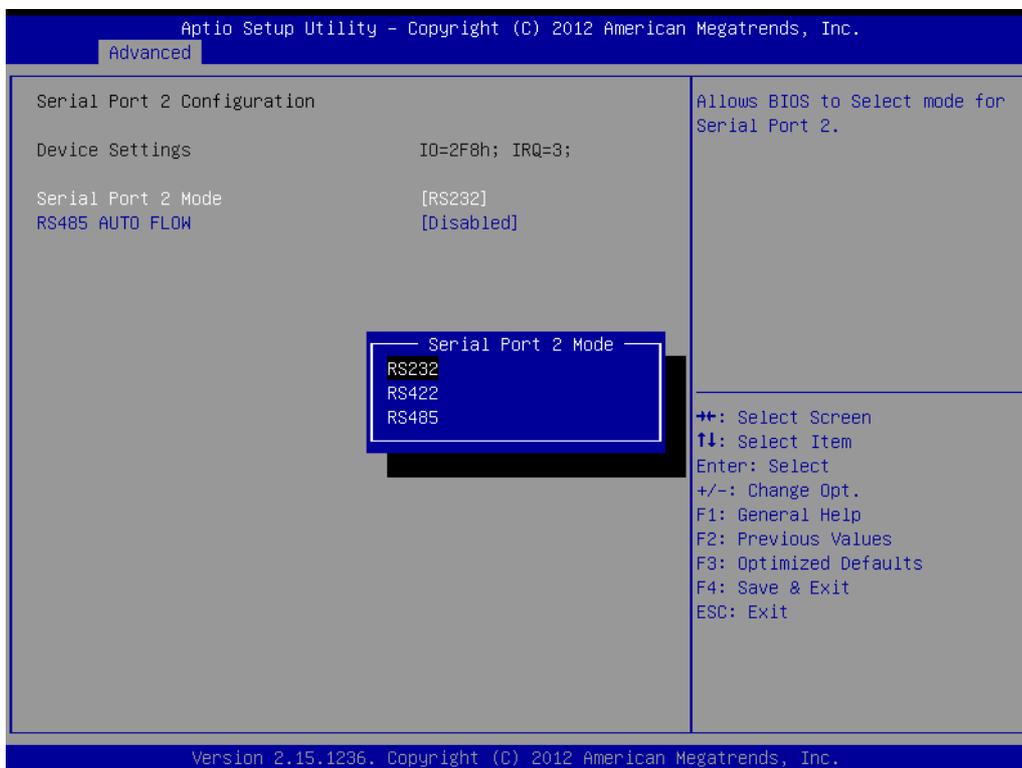

Enter the BIOS setup menu → Advanced → Super IO Configuration

## Select "Serial Port 2 Configuration"

## Change Serial Port 2 Mode [RS-232/422/485]

---

## 2.4 System Software Installation

Recent releases of operating systems from major vendors include setup programs that load automatically and guide users through hard disk preparation and operating system installation. The guidelines provided below will assist users in determining the necessary steps for installing an operating system.

**Note!** *Some distributors and system integrators may pre-install system software before shipping UTC-318.*

For software installation, an installed HDD is required. Software can be loaded on the UTC-318 using either of the following methods:

### 2.4.1 Method 1: Ethernet

Download software to the HDD via the Ethernet port.

### 2.4.2 Method 2: External USB CD-ROM

If necessary, insert the operating system installation or setup disk into the system disk drive.

The UTC-318 BIOS utility supports system bootup directly from the CD-ROM drive. Users can also insert the system installation CD into the CD-ROM drive.

Power on or reset the system by pressing “Ctrl+Alt+Del”. UTC-318 will automatically load the operating system from the disk or CD-ROM.

If presented with a setup or installation program’s opening screen, follow the onscreen instructions. The setup program will guide users through preparing the hard drive and installing the operating system. If presented with an operating system command prompt, such as A:\>, partition and format the hard drive before manually copying the operating system files to the hard drive. Refer to the operating system user manual for instructions regarding partitioning and formatting a hard drive.

## 2.5 Driver Installation

After installing the system software, users can set up the Ethernet, chipset, graphics, audio, USB 3.0, and touchscreen functions. All necessary drivers can be downloaded from the Advantech website.

**Note!** *The drivers and utilities used for UTC-318 are subject to change without notice.*

*If in doubt, check the Advantech website or contact our application engineers for the latest information regarding drivers and utilities.*

# Chapter 3

## Hardware Installation and Upgrades

This chapter explains the UTC-318 hardware installation process.

- HDD Installation
- mSATA Card Installation
- WLAN Installation

## 3.1 Introduction

UTC-318 is a touch-based computer housed in an plastic enclosure. The system's rear cover must be removed in order to install an HDD, DRAM, or mini SATA card, or to conduct hardware maintenance/upgrades.

**Warning!** Do not remove the rear cover until you have verified that no power is flowing within UTC-318. The power must be switched off and the power cord unplugged when servicing UTC-318.

## 3.2 HDD Installation

The UTC-318 internal controller can support one 2.5" SATA HDD. The SATA controller accelerates data transfers and allows the SATA HDD to exceed 150 MB. To install an HDD, follow the instructions below.

1. Detach and remove the rear cover.
2. Insert the HDD into the metal bracket and tighten the screws to affix in place (see Figure 3.1).
3. The HDD cable (SATA 7P+1\*5P-2.5/SATA(15+7)P) should be located next to the metal brace. Connect one end of the HDD cable to the motherboard (SATA1/SATA Power) and the other end to the SATA HDD.
4. Replace the rear cover and tighten the screws to secure in place.

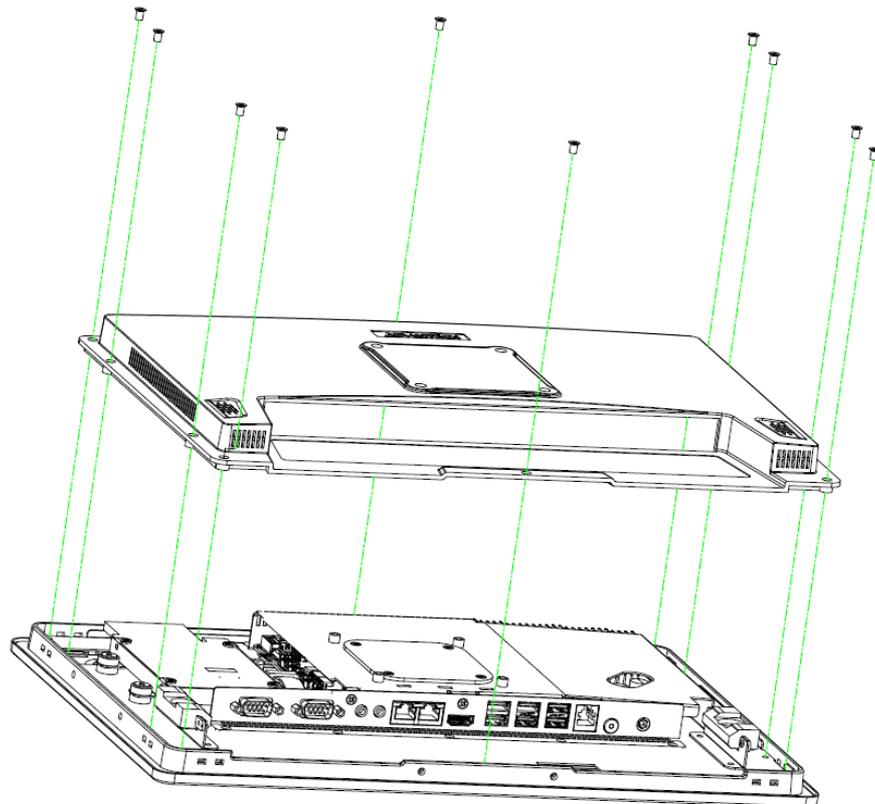

Figure 3.1 Installing an HDD

### 3.3 mSATA Card Installation

1. Remove the 10 screws on the rear cover.
2. Remove the 6 screws on the reinforced board.
3. Insert an mSATA card into the mSATA slot.
4. Replace and tighten the screws on the reinforced board.
5. Replace the rear cover and secure in place with screws.

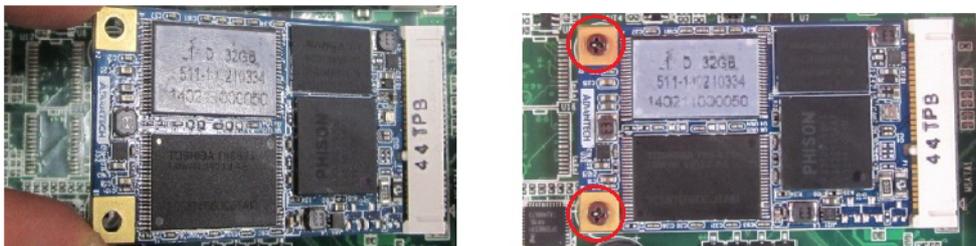

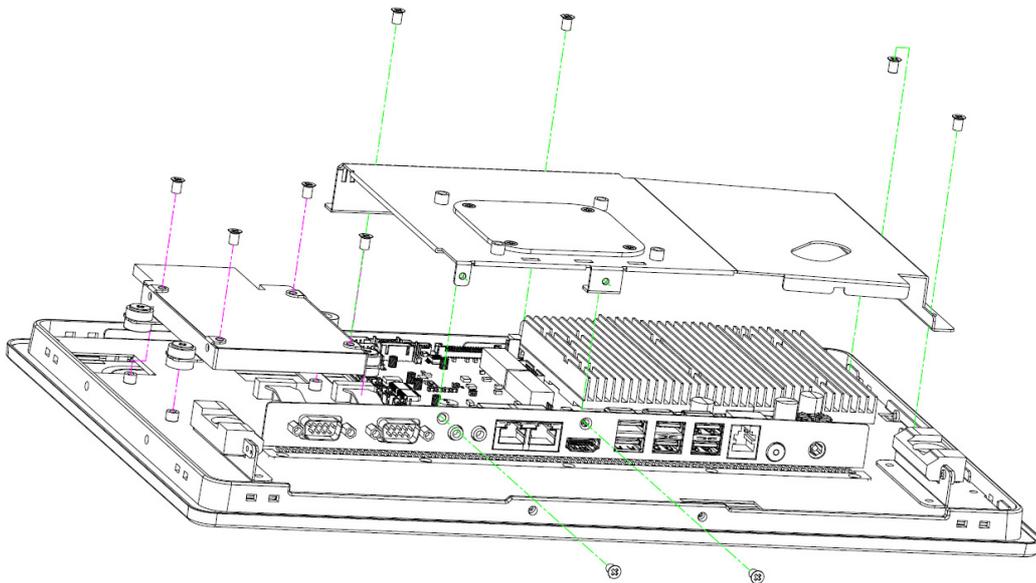

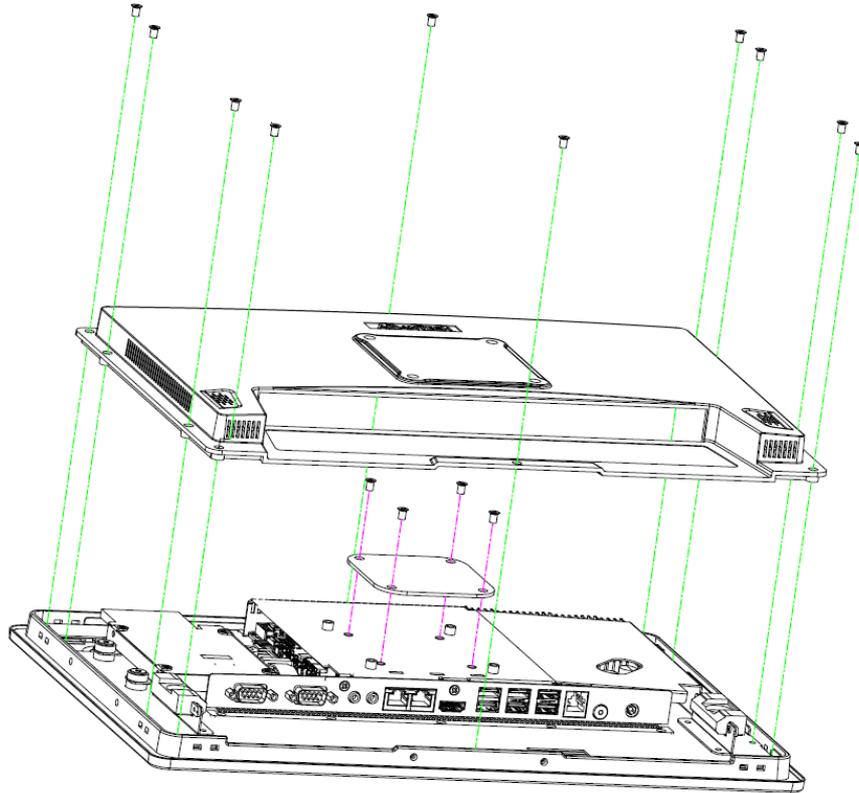

Figure 3.2 Installing an mSATA Card

## 3.4 WLAN Installation

Reserve two locations for the external antenna, one at the I/O port, the other on the rear cover. Users can choose the location according to their requirements.

1. Remove the 10 screws from the rear cover.

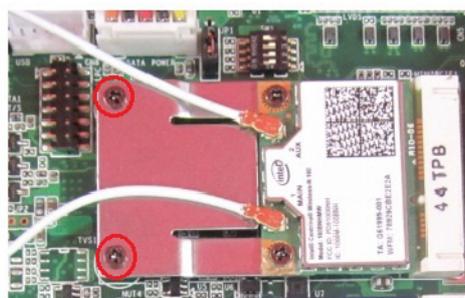

2. Remove the 6 screws on the reinforced board.

3. Connect a coaxial cable (Advantech part number: 1750008953-01 for UTC-318D/E/F, 170008954-01 for UTC-318G) to “ANT1” on the WLAN card.

4. Install the WLAN card on the underside of the motherboard.

5. The wireless antenna cable should be routed as shown below.

# Chapter 4

## Jumper and Connector Settings

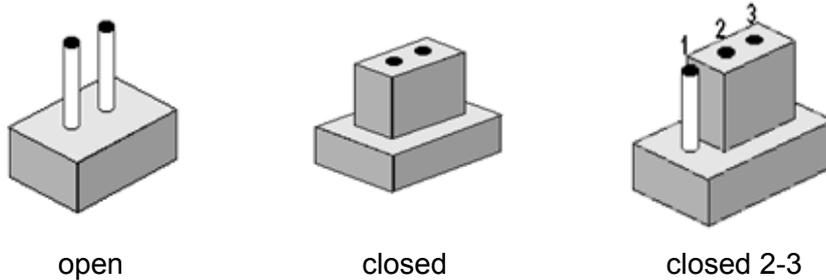

This chapter provides instructions for setting jumpers and connecting peripherals, switches, and indicators.

- Jumpers and Connectors
- Function Description
- Jumper and Connector Locations

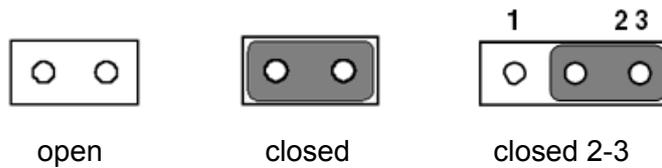

## 4.1 Jumpers and Connectors

### 4.1.1 Setting Jumpers

Users can configure UTC-318 according to their specific application requirements by setting jumpers. A jumper is the simplest type of electrical switch and consists of two metal pins and a small metal clip (typically protected by a plastic cover) that slides over the pins to connect them. To close a jumper, connect the pins with the clip. To open a jumper, simply remove the clip. Some jumpers have three pins, labeled 1, 2, and 3. With this type of jumper, connect either Pins 1 and 2, or Pins 2 and 3.

The jumper settings are schematically depicted below.

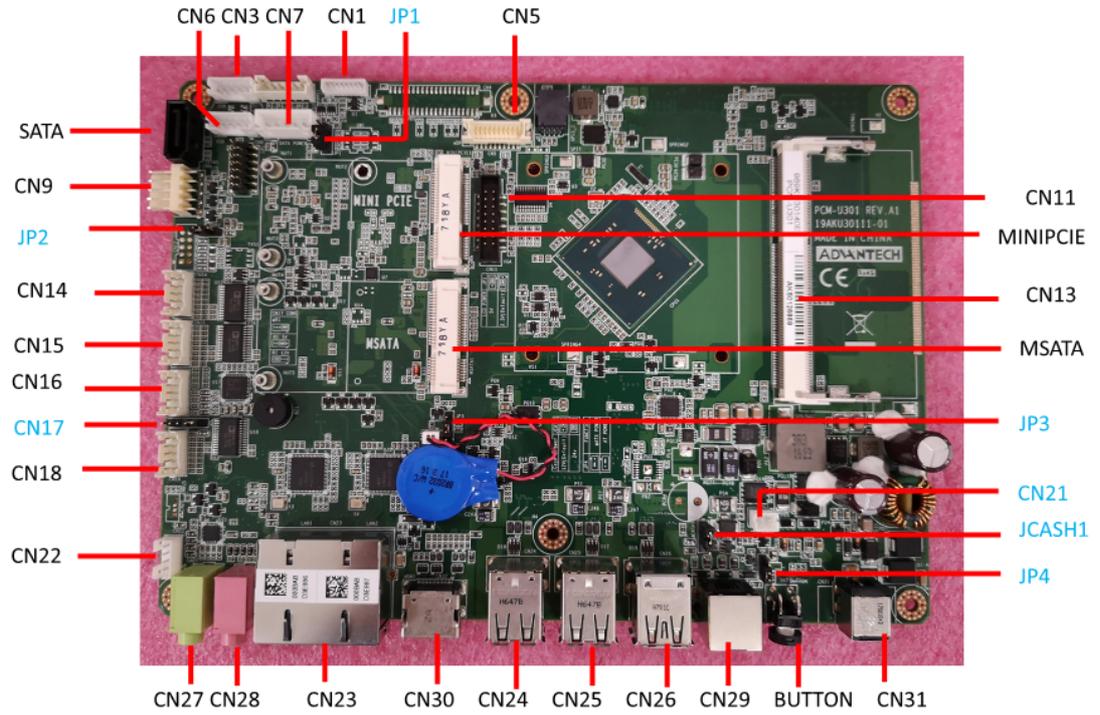

A pair of needle-nose pliers may be helpful when working with jumpers. If you have any concerns regarding the optimum hardware configuration for your application, contact your local distributor or sales representative before making any changes.

## 4.1.2 Jumper and Connector Functions

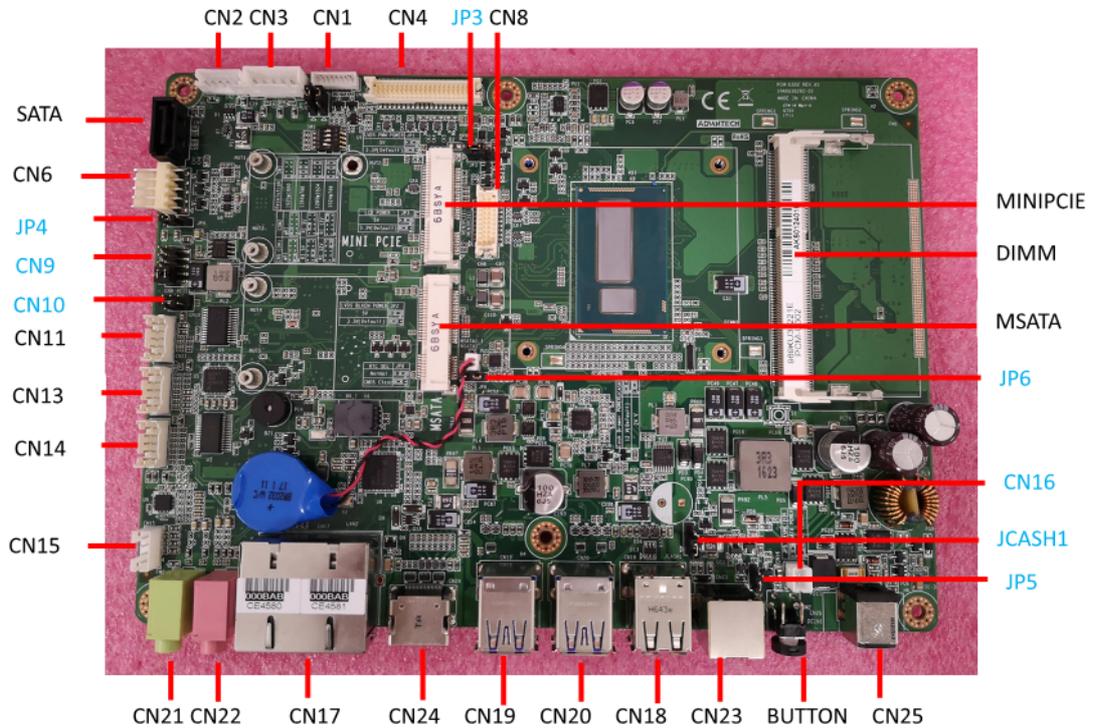

Table 4.1: Jumper and Connector Functions

## 4.2 Jumpers

### 4.2.1 Jumper List

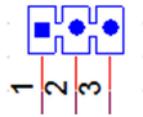

**Table 4.2: Jumper List**

JP1(D), JP3(EF)	LCD power
JP3(D), JP6(E), JP5(F), JP4(G)	Clear CMOS
JP4(D), JP5(EG), JP7(F)	AT/ATX power SEL
CN17(D), CN9(EF), CN14(G)	COM1, COM2 ring
JCASH1	Cash drawer power
CN10(E)	CSAFE power

### 4.2.2 Jumper Settings

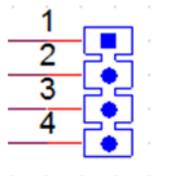

**Table 4.3: JP1(D), JP3(EF): LCD Power**

Part Number	1653003100
Footprint	HD_3x1P_100_D
Description	Pin header 3 x 1P 2.54 mm 180D(M) DIP 205-1 x 3GS
<b>Setting</b>	<b>Function</b>
(1-2)	5V
(2-3)*	3.3V

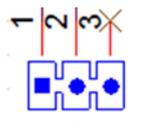

**Table 4.4: JP3(D), JP6(E), JP5(F), JP4(G): Clear CMOS**

Part Number	1653004101
Footprint	HD_4x1P_79_D
Description	Pin header 4 x 1P 2.0 mm 180D(M) DIP 21N12050
<b>Setting</b>	<b>Function</b>
(2-3)*	Normal
(3-4)	Clear CMOS

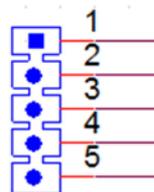

**Table 4.5: JP4(D), JP5(EG), JP7(F): AT/ATX Power SEL**

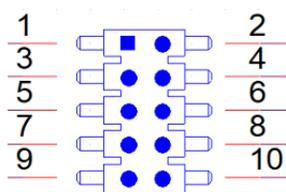

Part Number	1653003101
Footprint	HD_3x1P_79_D
Description	Pin header 3 x 1P 2.0 mm 180D(M) DIP square W/O Pb
<b>Setting</b>	<b>Function</b>
(1-2)	AT
(2-3)*	ATX

**Table 4.6: CN17(D): COM1 Ring**

Part Number	1653005101
Footprint	HD_5x1P_79_D
Description	Pin header 5 x 1P 2.0 mm 180D(M) DIP 1140-000-05SN
<b>Setting</b>	<b>Function</b>
(1-2)	Ring
(3-4)*	COM1 RI output +5V
(4-5)*	COM1 RI output +12V

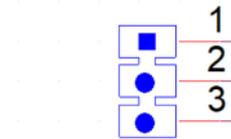

**Table 4.7: CN9(EF), CN14(G): COM1, COM2 Ring**

Part Number	1653005261
Footprint	HD_5x2P_79
Description	Pin header 5 x 2P 2.0 mm 180D(M) SMD 21N22050
<b>Setting</b>	<b>Function</b>
(1-3)	COM1 ring
(2-4)	COM2 ring
(3-5)*	COM1 RI output +5V
(4-6)*	COM2 RI output +5V
(7-9)*	COM1 RI output +12V
(8-10)*	COM2 RI output +12V

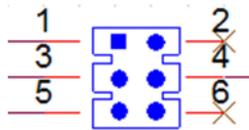

**Table 4.8: JCASH1: Cash Drawer Power SEL**

Part Number	1653003100
Footprint	HD_3x1P_100_D
Description	Pin header 3 x 1P 2.54 mm 180D(M) DIP 1130-000-03S
<b>Setting</b>	<b>Function</b>
(1-2)	12V
(2-3)*	24V

**Table 4.9: CN10: CSAFE Power**

Part Number	1653003201
Footprint	HD_3x2P_79_D
Description	Pin header 3 x 2P 2.0 mm 180D(M) DIP 21N22050
<b>Setting</b>	<b>Function</b>
(1-3) *	CSAFE output +5V
(3-4)	CSAFE output +9V
(3-5)	CSAFE output +12V

Part Number	1654011175-01
Footprint	HDMI_19P_QJ51191-LFB4-7F
Description	HDMI connector 19P 0.5 mm 90D(F) SMD QJ51191-LFB4-7F
<b>Pin</b>	<b>Pin Name</b>
1	HDMI_TX0+
2	GND
3	HDMI_TX0-
4	HDMI_TX1+
5	GND
6	HDMI_TX1-
7	HDMI_TX2+
8	GND
9	HDMI_TX2-
10	HDMI_TX3+
11	GND
12	HDMI_TX3-
13	NC
14	NC
15	HDMI_CLK
16	HDMI_DAT
17	GND
18	+5V
19	HDMI_DET

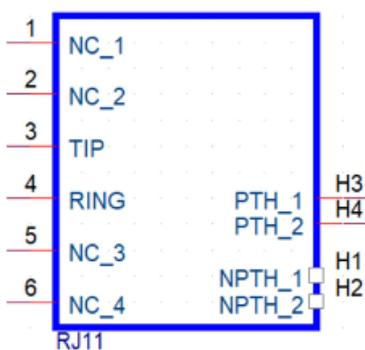

**Table A.31: CN31(DG), CN25(EF): DC-In**

Part Number	1652005624
Footprint	PJ_2P_2DC-G213B200
Description	DC power jack 2.5 mm 90D(M) DIP 2DC-G213B200
<b>Pin</b>	<b>Pin Name</b>
1	DC_IN
2	GND

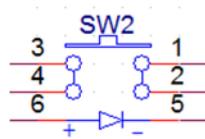

**Table A.32: CN29(D), CN23(EF), CN26(G): RJ11**

Part Number	1652005977-02
Footprint	S RJ11_6P_RJ1201-66N024R0
Description	Phone jack RJ11 6P 6C 90D(F) DIP 6u RJ1201-66N024
<b>Pin</b>	<b>Pin Name</b>
1	GND
2	Drawer_A
3	Drawer_state
4	Power
5	Drawer_B
6	GND

**Table A.33: Power Button**

Part Number	1600000055
Footprint	SW_6P_TC003-N11AABRGXX-RK_D
Description	Push SW DIP 6P with LED without Pb TC003-N11AABRGXX-RK
<b>Pin</b>	<b>Pin Name</b>
1	GND
2	GND
3	ATX_PWRBTN#
4	ATX_PWRBTN#
5	GND
6	+5V
